PERSONAL PROFILE

Results-driven Frontend Developer with proven expertise in building high-performance and scalable user interfaces using JavaScript, React, Next.js, and TypeScript. Skilled in leveraging modern frameworks, performance optimization, as well as AI-powered workflows to deliver seamless digital experiences. Strong collaborator with a track record of reducing development time and enhancing user engagement metrics.

EXPERIENCE

KDN Plus — Frontend Developer(Jan 2025 – Present)
SaaS platform for digital content streaming

Technologies: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS

- Built responsive UI components in Next.js, TypeScript, and Tailwind CSS, reducing bounce rate by **35%** through faster load times and optimized navigation.
- Integrated Paystack (USA/Canada) and Stripe (Nigeria/South Africa), processing **1,000+** subscriptions and increasing transaction efficiency by **13%**.
- Implemented Zustand-based state management for personalized playlists, boosting returning user engagement by **30%**.
- participated in peer code reviews, ensuring rapid feature delivery, and improving development speed by **25%** through agile sprints.
- Enhanced app speed, SEO ranking, and interaction rate by **31%** through Next.js optimizations.

AGM TechPulse — Frontend Developer(Mar 2024 – Oct 2024)
Freelance web solutions provider

Technologies: HTML, CSS, JavaScript, Tailwind CSS

- Led a team of tech interns in building the front-end of an investment banking website, ensuring maintainable, standards-compliant code.

- Translated UI designs into responsive, pixel-perfect pages, improving cross-device compatibility and engagement.
- Optimized front-end performance, reducing load time by **20%** across desktop and mobile.
- Applied **semantic HTML** and **accessibility best practices** to enhance SEO and inclusivity.
- Built reusable UI components, cutting development time by **20%**.
- Reduced infrastructure costs by **10%** through performance and code efficiency improvements.

TECHNICAL SKILLS

Languages: HTML, CSS/Sass, JavaScript, TypeScript

Frameworks & Libraries: React, Next.js, Redux, Zustand, TanStack Query, Tailwind CSS, Chakra UI

Performance Optimization: Lazy loading, memoization, image optimization, code splitting

Design Systems: UI consistency, accessibility, theming, component reusability

Tools & Platforms: Git, Webpack, Netlify, Vercel, Heroku, Firebase

Testing: Jest, Cypress

EDUCATION

Federal University of Technology, Owerri, Nigeria — B.Eng. Agricultural Engineering
September 2016 - August 2022

LANGUAGES

English(Fluent)
